The **Chilterns** are an area of outstanding beauty just 40 minutes from London. The area is full of historical market towns such as Amersham, Henley-On –Thames and Wendover. In 324 square miles of superb scenery, intriguing attractions, tucked-away villages and market towns, there's always something more to be discovered. The land between the towns is very fertile and it is no wonder you will see many farms in the area.

For the past two years BPM have been attending **Thame Farmers Market** which is held every Wednesday. The market can be traced back to the 15th century and one of the main reasons we decide to purchase from there is down to the excellent selection of Chiltern Farm lambs. We have also found that having the control over what we buy pays dividends with the consistency of the product.

Breeds you will typically see at the market include; The Oxford or Oxford Down, Southdown, Texel and many others pass through this busy market.

All the animals we purchase are from farm assured farms and we have full traceability. The Market also holds regular special sales of breeding cattle as well as pedigree bull sales, Hereford & Angus plus show potential store cattle.

Black Face lambs at Thame market.

32 Hyde Way, Welwyn Garden City, Hertfordshire, AL7 3UQ
